

7 mil Adhesive Back Photobase

Gloss & Matte

Inkjet Resin-Coated Photobase with pressure sensitive adhesive (PSA) with a clear polyester liner. Adhesive coating allows for easy mounting on steel, glass, Foam Core, Plexiglass and other smooth surfaces.

Opacity	91
Gloss (60 degrees)	Gloss 72 Matte 35
Whiteness	105
Caliper	6.5 mil
Film Liner	1.0 mil
Basis Weight	170g/m ²
Application	Indoor

Specifications

Ink coverage up to 350%

For optimum results, set printer for highest print quality and media selection to "Photopaper"

Inks: Dye-Based only

 - 3000 Series
 - 5000 Series

Printer & Ink Compatibility

LAMINATION

Can be overlaminated with most cold and low-temp hot laminates. Better adhesion is achieved using cold laminate. Overlap the image with minimum .25 inch safe edge to prevent moisture absorption and premature paper splitting. Lamination can be performed immediately after printing as long as the inks are dry to the touch and do not smear.

MOUNTING

Recommended mounting material is cold, pressure-sensitive adhesive to provide the best bond.

Lamination & Mounting
