

April 21, 2026

Dear Valued Customer,

Due to continued increases in freight, transportation, and carrier surcharge costs, in some cases additional freight-related charges may apply when current freight allowances do not fully cover shipment costs. These adjustments are necessary to help offset rising carrier rates while allowing us to continue providing reliable and timely service.

As fuel surcharges ease and market conditions improve, we expect these impacts to normalize.

Additionally, due to announced rate increases from FedEx, UPS, and other parcel carriers, pricing for all single-carton delivered orders and Drop Ship programs will be adjusted effective **June 1, 2026**.

If you have any questions or would like to discuss your specific orders, please do not hesitate to contact your TST Account Manager.

Sincerely,

Todd Hartman
Vice President Sales/Marketing
TST IMPRESO, Inc.
